

# The CHRP designation – Ensuring Excellence in your Workplace

Those who attain the Certified Human Resources Professional (CHRP) designation are among the most accomplished professionals in business today. The CHRP designation represents a commitment to a national standard of excellence, sets a benchmark for the practice of effective human resources and emphasizes the strategic role of human capital management in business. It is a national designation, portable from one province to another, and granted provincially.

Congratulations to the 2005 recipients of the CHRP designation.
